“A Journey into the Old Venice”

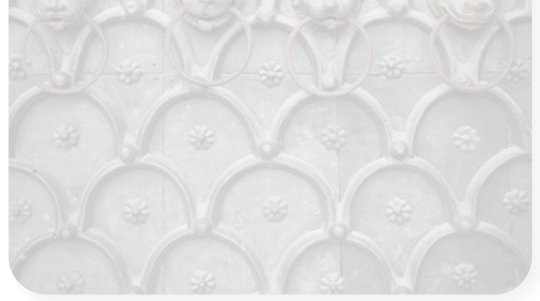

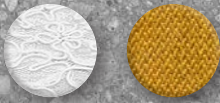

With an aesthetic that shifts between concrete and stone, terrazzo tiles are some of the most wanted tiles for a charming and elegant look. With a timeless beauty that is hard to resist, terrazzo tiles are a less than classy origin: created from the combination of different materials, it's the definition that beauty can be found if one just dares to look. Vision is our idea of terrazzo tiles, a subtle yet peculiar look, presenting a delicate graphic on a concrete background, perfect to give interiors an elegant touch that can also be modern, and a fitting choice for exteriors, to create stunning patios and decks.

Our interpretation of terrazzo flooring aims to experiment with new approaches to graphics and design to recreate that same feeling of 15th century in Venice, when this particular technique was created as a way of re-using marble and granite chips, mixed together with cement to remind the onlookers of an uneven mosaic. We want to honor the traditional feel of this tile and offer our own vision of it, our ideal of a beauty that can decorate the spaces we hold dearest to our hearts.
